I am writing to urge you to reject the National Association of Broadcasters petition 04-160 which stops XM radio from providing instant traffic and weather. This is a very valuable service and should be allowed through the XM Satellite radio service for which I pay a monthly subscription fee. I am willing to pay this for the extra services and choices provided through XM that are not found on local broadcast stations. Please allow this service to continue for subscribers. Thank you for your support.
